

We wrote the song 'I wanna go Home' in early September 2021. The lyrics were inspired by the ongoing global refugee crisis. We decided to record this song now as sadly this crisis has recently escalated. There are so many displaced people due to war, climate change, economic struggles and other factors. But the one thing shared in common is this desire to find a place you can call home.

'I wanna go Home'

I
Come from everywhere
But you don't see me
Or seem to care
My shoes are worn
But I've kept my soul
My clothes are torn
But I'll reach my goal

Like you,
I had everything
A normal life
A normal upbringing
A nice home
In a community
I had my work
I have my dignity

You send me on my way
You send me on my way
But I wanna to go home today

But you
Don't even know my name
A Refugee
You think I'm to blame
I risk my life
Doing things I shouldn't have to do
To stay alive
Just like you would do

I've said goodbye
To everything I've known
No tears left to cry
I'm just on my own
I can't look back
Everything is gone
So I'll stay on the migrant's track
'Till I find a home
